

I have enjoyed my time learning about and working more in depth with NYSOA and am seeking to further my involvement by stepping into an executive leadership position. I have been a member of the South Central Society since 2011 and was the President from 2016-2019, when I stepped into the Hudson Mohawk Regional Trustee position. I have increased communications with local society presidents with monthly summaries of our board meetings and work with new members to find their place in NYSOA. Though I never believe myself to have the most knowledge in the room, I am excited to continue the work I have put into the NYSOA by becoming the Treasurer.
